

**Testing and Prediction of Long-Term Waste
Glass Performance - Russian *In-Situ* Testing
Joint U.S.-Russian Workshop
Richland, Washington
February 11-15, 2002**

Participants:

Russia

Alexander Barinov, Scientific and Industrial Association (SIA) Radon
Mikhail Ojovan, SIA Radon
Natalia Ojovan, SIA Radon

United States

Joe Westsik, Pacific Northwest National Laboratory (PNNL)
Pete McGrail, PNNL
Diane Bacon, PNNL
John Vienna, PNNL
Jonathan Icenhower, PNNL
Bill Holtzscheiter, Savannah River Site (SRS)
Troy Lorier, SRS
Liliya Petrachenkova, Science Applications International Corporation (SAIC)

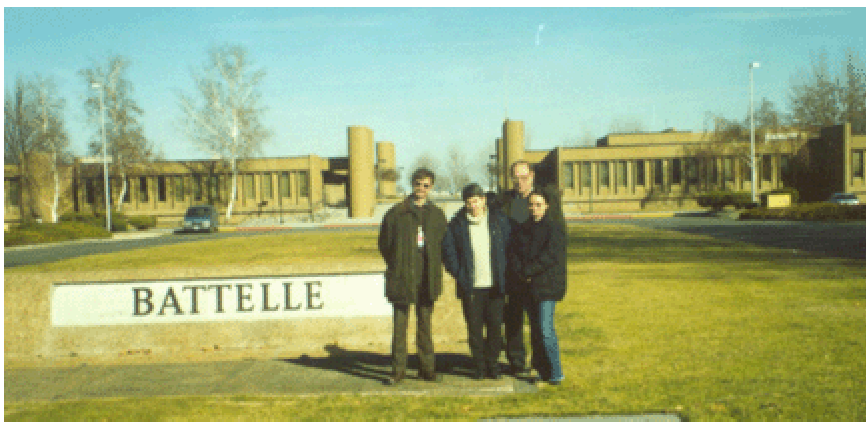

Interpreters: Sergei Silitchev, Thomas E. Albert and Associates, Inc.
Kevin Kelly, Thomas E. Albert and Associates, Inc.

The purpose of the workshop was to discuss the status of work performed to date at SIA Radon and at PNNL on the Testing and Modeling of Long Term Performance of High Sodium Glass in Contact with Water and to develop a draft test plan for the work to be performed.
